Our Mission:

Fading Blue is an exhibition that showcases both the beauty and the fragility of the ocean. Though the ocean has been a place full of color and life, today, it faces growing threats from pollution and climate change.

Our exhibition consists of artworks that range from beautiful, vivid scenery to portrayals of plastic waste and pollution. It reveals the contrast between what we admire and what we risk losing. Fading Blue reminds us that the ocean's dying hues mirror our fading care for the ocean.

Title: Why Us?

Name: Seoyeon Sohn

School: Ridgewood High School

Title: Climate's Orphan
